

# Track Maintenance work to occur between Rockridge and Lafayette Stations April through July

Dear BART Neighbor:

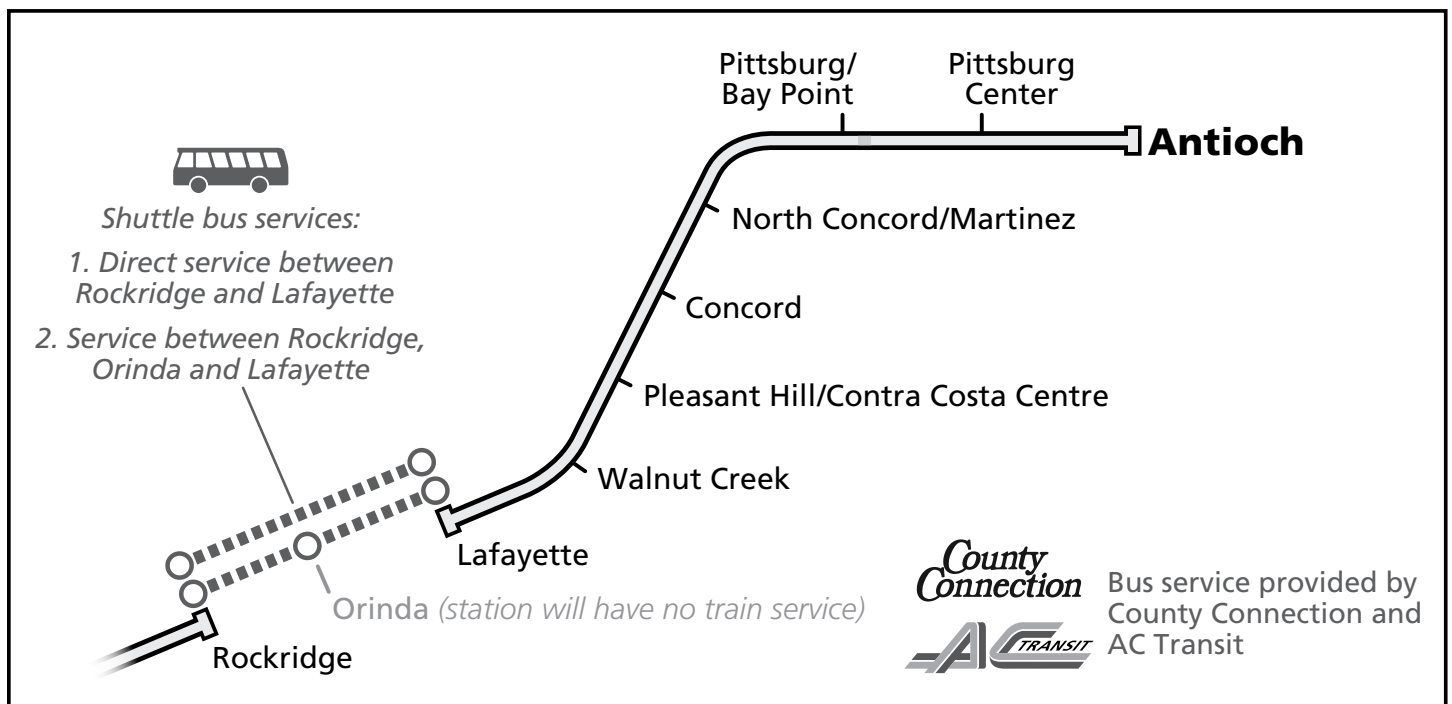

BART crews will replace critical track components between the Rockridge and Lafayette stations from April 17 through July 25, including five weekend closures with no train service between Rockridge and Lafayette. Free buses instead of trains, will carry passengers between those stations (see below for dates). This critical work will replace nearly 50-year old track infrastructure and is made possible by utilizing voter-authorized, Measure RR funds.

During closure weekends and select weeknights, equipment and material will need to be placed near the BART tracks. Construction work will require up to two lanes of Hwy 24 in Orinda to be closed from 11 pm to 5 am the next morning. Unlike last year's similar track work in Lafayette, this track maintenance will not require any daytime lane closures of Highway 24 and is not expected to cause delays for drivers. In addition to replacing track, BART will improve station platforms, and make other repairs to the system.

Neighbors can expect lights at night, and the operation of construction equipment during this maintenance period. Once complete, you can expect a decrease in the noise level from trains and BART passengers should experience a smoother, safer, and more reliable ride.

On the following dates, passengers traveling through the Rockridge, Orinda or Lafayette stations will be required to leave their train and take a free bus to the next station in their direction of travel. Please keep in mind the following dates are subject to change based upon local, state, and regional response to the coronavirus.

**The bus bridge dates are May 9-10, May 23-25, June 6-7, June 20-21 and July 4-5**

**Buses provided by County Connection and AC Transit will have the following shuttle services:**

1. Direct service between Rockridge and Lafayette.
2. Service between Rockridge, Orinda and Lafayette stations.

BART Passengers should plan on at least an additional 20 minutes to complete their journey.

Passengers traveling toward San Francisco, who typically park at Lafayette, or Orinda may choose to drive to the Rockridge Station and park for free to avoid the bus bridge.
